

Between 6th-10th of March 2013 was held in Innsbruck, AUSTRIA the **THIRD MEETING** of the project “**e- TRAINING FOR WELLNESS IN SPA SERVICES / e- TRAWELSPA**”

There were discussed: a short review of the project e-TRAWELSPA and presentation of the stage we're in (products proposed and accomplished), the Interim Report, Dissemination Report, Overview of Quality Assurance, e-learning platform and project's website page

We had a working day in SPA Centers on side visiting program, open discussion and experimental evaluation of the educational/training programs available on Austrian SPA and wellness centres

The aim of the meeting was to update the information on project's current status, as well as the strategy for authorization, implementation, development and reviewing of the professional training directions:

1. Organization and management of SPA and wellness centres
2. Applications of hydrokinesiotherapy within balneary resorts
3. Applications of massage within balneary resorts
4. SPA Therapist

The working visit was carried out for information, documenting and sharing best practices purposes regarding the rehabilitation, wellness and SPA –type services.

Two renowned centres in Tyrol region have been chosen: Kur Zentrum and Aqua Dome; the managers of two centres participated in discussions.
